Product Name: ReadiPrep™ DNA Extraction Kit

Catalog Number: 67100

Chemical Name	CAS#	EINECS#	Appearance	Water Solubility
Component A: ReadiPrep™ DNA Lysis Buffer	N/A	N/A	Liquid	High
Component B: ReadiPrep™ DNA Columns	N/A	N/A	Solid	N/A
Component C: ReadiPrep™ DNA Wash Buffer 1	N/A	N/A	Liquid	High
Component D: ReadiPrep™ DNA Wash Buffer 2	N/A	N/A	Liquid	High
Component E: ReadiPrep™ DNA Elution Buffer	N/A	N/A	Liquid	High
Component F: Proteinase K	N/A	N/A	Liquid	Moderate
Component G: Collection Tubes	N/A	N/A	Solid	N/A

Safety Data Sheet

Section 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifiers

Product name: ReadiPrep™ DNA Extraction Kit

Product number: 67100

1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses: For research use only. Not intended for diagnostic or therapeutic

use.

1.3 Details of the supplier of the datasheet

Company: AAT Bioquest, Inc.

Address: 5775 W Las Positas Blvd, Pleasanton, CA 94588

Telephone: (408)-733-1055
Fax: (408)-733-1304
Email: info@aatbio.com

1.4 Emergency telephone number

Chemtrec (Within USA): 1-(800)-424-9300 Chemtrec (Outside USA): 1-(703)-527-3887

Section 2: Hazard identifications

2.1 Classification of the substance or mixture

Not a dangerous substance or mixture according to the Globally Harmonized System (GHS)

2.2 Label elements

Signal word: Not applicable

Hazard statements: None Symbols/Pictograms: None

Precautionary statements - prevention: Wash hands thoroughly after handling

Precautionary statements - response: IF exposed concerned: Get medical advice/attention

Precautionary statements - storage: None
Precautionary statements - disposal: None

2.3 Hazards not otherwise classified (HNOC) or not covered by GHS

Hazards not otherwise classified (HNOC): None

2.4 Other information

Other hazards: None

Page 2 / 43 Revision date: 9/20/2024 Version 1.0

Section 3: Composition/information on ingredients

3.1 Substances

Chemical name: ReadiPrep™ DNA Extraction Kit

CAS No.:

Molecular weight:

Formula:

Section 4: First aid measures

4.1 First-aid measures

General advice: If symptoms persist, call a physician. Do not breathe

dust/fume/gas/mist/vapors/spray. Do not get in eyes, on the skin,

or on clothing.

Eye contact: Immediately flush with plenty of water. After initial flushing,

remove any contact lenses and continue flushing for at least 15 minutes. Keep eye wide open while rinsing. If symptoms persist,

call a physician.

Skin contact: Consult a physician if necessary. Wash off immediately with soap

and plenty of water while removing all contaminated clothes and shoes. Wash contaminated clothing before reuse. Wash off immediately with plenty of water. If skin irritation persists, call a physician. Wash off immediately with soap and plenty of water.

Immediate medical attention is not required.

Inhalation: Remove to fresh air If breathing is irregular or stopped, administer

artificial respiration. Avoid direct contact with skin. Use a barrier to give mouth-to-mouth resuscitation. Artificial respiration and/or oxygen may be necessary. Immediate medical attention is not required. Move to fresh air in case of accidental inhalation of

vapors. If symptoms persist, call a physician.

Ingestion: Do NOT induce vomiting. Rinse/clean mouth with water and drink

plenty of water afterward. Never give anything by mouth to an

unconscious person. Consult a physician.

Self-protection of the first aider: Use personal protective equipment.

4.2 Most important symptoms and effects, both acute and delayed

Symptoms: No information available.

4.3 Indication of any immediate medical attention and special treatment needed

Note to physicians: Treat symptomatically.

Section 5: Firefighting measures

5.1 Suitable extinguishing media

Suitable extinguishing media: Use extinguishing measures that are appropriate to local

circumstances and the surrounding environment.

Unsuitable extinguishing media: No information available.

5.2 Specific hazards arising from the chemical

Page 3 / 43 Revision date: 9/20/2024 Version 1.0

Specific hazards arising from the chemical: In the event of a fire and/or explosion, do not breathe fumes. May

cause sensitization by inhalation and skin contact. Thermal decomposition can lead to the release of irritating and toxic gases

and vapors.

Hazardous combustion products: Carbon oxides, sulfur oxides

5.3 Explosion data

Sensitivity to mechanical impact: No information available.

Sensitivity to static discharge: No information available.

5.4 Protective equipment and precautions for firefighters

Protective equipment and precautions for

firefighters:

As in any fire, wear self-contained breathing apparatus pressure-

demand, MSHA/NIOSH (approved or equivalent), and full protective gear.

Section 6: Accidental release measures

6.1 Personal precautions, protective equipment, and emergency procedures

Personal precautions: Use personal protective equipment as required. Keep people away

from and upwind of spill/leak. Evacuate personnel to safe areas.

6.2 Environmental precautions

Environmental precautions: Prevent further leakage or spillage if safe to do so. Prevent

product from entering drains. Do not flush into surface water or sanitary sewer system. See Section 12 for additional Ecological

Information.

6.3 Methods and material for containment and cleaning up

Methods for containment: Prevent further leakage or spillage if safe to do so. Cover powder

spill with a plastic sheet or tarp to minimize spreading. Dike far

ahead of liquid spill for later disposal.

Methods for cleaning up: Use personal protective equipment as required. Cover powder

spill with a plastic sheet or tarp to minimize spreading and keep the powder dry. Take up mechanically, placing in appropriate containers for disposal. Avoid creating dust. Clean contaminated surfaces thoroughly. Soak up with inert absorbent material. Dam up. Pick up and transfer to properly labeled containers. Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water. Take precautionary measures

against static discharges.

Section 7: Handling and storage

7.1 Precautions for safe handling

Advice on safe handling: Avoid contact with skin, eyes, or clothing. Use personal protective

equipment as required. Wash contaminated clothing before reuse. Do not breathe dust/fume/gas/mist/vapors/spray. Do not eat, drink

or smoke when using this product. Use with local exhaust

ventilation.

7.2 Conditions for safe storage, including any incompatibilities

Page 4 / 43 Revision date: 9/20/2024 Version 1.0

Storage conditions: Keep the container tightly closed in a dry and well-ventilated

place. Recommended storage temperature is 2-8°C. Minimize

light exposure.

Incompatible materials: None known based on information supplied.

Section 8: Experimental controls/personal protection

8.1 Control parameters

Appearance:

Upper flammability limit:

Exposure guidelines: This product, as supplied, does not contain any hazardous

materials with occupational exposure limits established by the

region-specific regulatory bodies.

8.2 Appropriate engineering controls

Engineering controls: Showers, eyewash stations, ventilation systems

8.3 Individual protection measures, such as personal protective equipment

Eye/face protection: Tight sealing safety goggles. Face protection shield.

Skin and body protection: Wear protective gloves and protective clothing.

Respiratory protection: If exposure limits are exceeded, or irritation is experienced,

> NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must

be provided in accordance with current local regulations.

General hygiene considerations: When using, do not eat, drink or smoke. Regular cleaning of

Explosive properties:

No information available

No information available

Section 10: Stability and reactivity

Reactivity: No data available

Chemical stability: May form explosive peroxides
Possibility of hazardous reactions: None under normal processing

Hazardous polymerization: No information available

Conditions to avoid: Extremes of temperatures and direct sunlight

Incompatible materials: Strong oxidizing agents

Hazardous decomposition products: Carbon oxides

Section 11: Toxicological information

11. Information on likely routes of exposure

Inhalation:

Eye contact:

No data available

11.2nformation on toxicological effects

Symptoms: No information available

Delayed and immediate effects as well as chronic effects from short and long-term 11.3exposure

Chronic toxicity: Repeated contact may cause allergic reactions in very susceptible

persons. Avoid repeated exposure.

11.4 Numerical measures of toxicity - product information

Unknown acute toxicity: No information available

Section 12: Ecological information

Ecotoxicity: May cause long-lasting harmful effects to aquatic life.

Persistence and degradability: No information available Bioaccumulation: No information available Mobility: No information available

Section 13: Disposal consideration

Disposal of wastes: Disposal should be in accordance with applicable regional,

national and local laws and regulations.

Contaminated packaging: Do not reuse container

Other information: Waste codes should be assigned by the user based on the

application for which the product was used.

Section 4: First aid measures

4.1 First-aid measures

General advice: If symptoms persist, call a physician. Do not breathe

dust/fume/gas/mist/vapors/spray. Do not get in eyes, on the skin,

or on clothing.

Eye contact: Immediately flush with plenty of water. After initial flushing,

remove any contact lenses and continue flushing for at least 15 minutes. Keep eye wide open while rinsing. If symptoms persist,

call a physician.

Skin contact: Consult a physician if necessary. Wash off immediately with soap

and plenty of water while removing all contaminated clothes and shoes. Wash contaminated clothing before reuse. Wash off immediately with plenty of water. If skin irritation persists, call a physician. Wash off immediately with soap and plenty of water.

Immediate medical attention is not required.

Inhalation: Remove to fresh air If breathing is irregular or stopped, administer

artificial respiration. Avoid direct contact with skin. Use a barrier to give mouth-to-mouth resuscitation. Artificial respiration and/or oxygen may be necessary. Immediate medical attention is not required. Move to fresh air in case of accidental inhalation of

vapors. If symptoms persist, call a physician.

Ingestion: Do NOT induce vomiting. Rinse/clean mouth with water and drink

plenty of water afterward. Never give anything by mouth to an

unconscious person. Consult a physician.

Self-protection of the first aider: Use personal protective equipment.

4.2 Most important symptoms and effects, both acute and delayed

Symptoms: No information available.

4.3 Indication of any immediate medical attention and special treatment needed

Note to physicians: Treat symptomatically.

Section 5: Firefighting measures

5.1 Suitable extinguishing media

Suitable extinguishing media: Use extinguishing measures that are appropriate to local

circumstances and the surrounding environment.

Unsuitable extinguishing media: No information available.

5.2 Specific hazards arising from the chemical

Page 24 / 43 Revision date: 9/20/2024 Version 1.0

Specific hazards arising from the chemical: In the event of a fire and/or explosion, do not breathe fumes. May

cause sensitization by inhalation and skin contact. Thermal decomposition can lead to the release of irritating and toxic gases

ecomposition can lead to the release of irritating and toxic gas

and vapors.

Hazardous combustion products: Carbon oxides, sulfur oxides

5.3 Explosion data

Sensitivity to mechanical impact: No information available.

Sensitivity to static discharge: No information available.

5.4 Protective equipment and precautions for firefighters

Protective equipment and precautions for

firefighters:

As in any fire, wear self-contained breathing apparatus pressuredemand, MSHA/NIOSH (approved or equivalent), and full

protective gear.

Section 6: Accidental release measures

6.1 Personal precautions, protective equipment, and emergency procedures

Personal precautions: Use personal protective equipment as required. Keep people away

from and upwind of spill/leak. Evacuate personnel to safe areas.

6.2 Environmental precautions

Environmental precautions: Prevent further leakage or spillage if safe to do so. Prevent

product from entering drains. Do not flush into surface water or sanitary sewer system. See Section 12 for additional Ecological

Information.

6.3 Methods and material for containment and cleaning up

Methods for containment: Prevent further leakage or spillage if safe to do so. Cover powder

spill with a plastic sheet or tarp to minimize spreading. Dike far

ahead of liquid spill for later disposal.

Methods for cleaning up: Use personal protective equipment as required. Cover powder

spill with a plastic sheet or tarp to minimize spreading and keep the powder dry. Take up mechanically, placing in appropriate containers for disposal. Avoid creating dust. Clean contaminated surfaces thoroughly. Soak up with inert absorbent material. Dam up. Pick up and transfer to properly labeled containers. Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water. Take precautionary measures

against static discharges.

Section 7: Handling and storage

7.1 Precautions for safe handling

Advice on safe handling: Avoid contact with skin, eyes, or clothing. Use personal protective

equipment as required. Wash contaminated clothing before reuse. Do not breathe dust/fume/gas/mist/vapors/spray. Do not eat, drink

or smoke when using this product. Use with local exhaust

ventilation.

7.2 Conditions for safe storage, including any incompatibilities

Page 25 / 43 Revision date: 9/20/2024 Version 1.0

Storage conditions: Keep the container tightly closed in a dry and well-ventilated

place. Recommended storage temperature is 2-8°C. Minimize

light exposure.

Incompatible materials: None known based on information supplied.

Section 8: Experimental controls/personal protection

8.1 Control parameters

Exposure guidelines: This product, as supplied, does not contain any hazardous

materials with occupational exposure limits established by the

region-specific regulatory bodies.

8.2 Appropriate engineering controls

Engineering controls: Showers, eyewash stations, ventilation systems

8.3 Individual protection measures, such as personal protective equipment

Eye/face protection: Tight sealing safety goggles. Face protection shield.

Skin and body protection: Wear protective gloves and protective clothing.

Respiratory protection: If exposure limits are exceeded, or irritation is experienced,

> NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must

be provided in accordance with current local regulations.

General hygiene considerations: When using, do not eat, drink or smoke. Regular cleaning of

> equipment, work area, and clothing is recommended. Avoid contact with skin, eyes, or clothing. Wash hands thoroughly after handling. Keep away from food, drink, and animal feeding stuff.

Protective equipment and precautions for

firefighters:

As in any fire, wear self-contained breathing apparatus pressuredemand, MSHA/NIOSH (approved or equivalent), and full

protective gear.

Section 6: Accidental release measures

6.1 Personal precautions, protective equipment, and emergency procedures

Personal precautions: Use personal protective equipment as required. Keep people away

from and upwind of spill/leak. Evacuate personnel to safe areas.

6.2 Environmental precautions

Environmental precautions: Prevent further leakage or spillage if safe to do so. Prevent

product from entering drains. Do not flush into surface water or sanitary sewer system. See Section 12 for additional Ecological

Information.

6.3 Methods and material for containment and cleaning up

Methods for containment: Prevent further leakage or spillage if safe to do so. Cover powder

spill with a plastic sheet or tarp to minimize spreading. Dike far

ahead of liquid spill for later disposal.

Methods for cleaning up: Use personal protective equipment as required. Cover powder

spill with a plastic sheet or tarp to minimize spreading and keep the powder dry. Take up mechanically, placing in appropriate containers for disposal. Avoid creating dust. Clean contaminated surfaces thoroughly. Soak up with inert absorbent material. Dam up. Pick up and transfer to properly labeled containers. Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water. Take precautionary measures

against static discharges.

Section 7: Handling and storage

7.1 Precautions for safe handling

Advice on safe handling: Avoid contact with skin, eyes, or clothing. Use personal protective

equipment as required. Wash contaminated clothing before reuse. Do not breathe dust/fume/gas/mist/vapors/spray. Do not eat, drink

or smoke when using this product. Use with local exhaust

ventilation.

7.2 Conditions for safe storage, including any incompatibilities

Page 39 / 43 Revision date: 9/20/2024 Version 1.0

Storage conditions: Keep the container tightly closed in a dry and well-ventilated

place. Recommended storage temperature is <-15°C. Minimize

light exposure.

Incompatible materials: None known based on information supplied.

Section 8: Experimental controls/personal protection

8.1 Control parameters

:Hq

Upper flammability limit:

Vapor pressure:

Exposure guidelines: This product, as supplied, does not contain any hazardous

materials with occupational exposure limits established by the

region-specific regulatory bodies.

8.2 Appropriate engineering controls

Engineering controls: Showers, eyewash stations, ventilation systems

8.3 Individual protection measures, such as personal protective equipment

Eye/face protection: Tight sealing safety goggles. Face protection shield.

Skin and body protection: Wear protective gloves and protective clothing.

Respiratory protection: If exposure limits are exceeded, or irritation is experienced,

> NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must

be provided in accordance with current local regulations.

General hygiene considerations: When using, do not eat, drink or smoke. Regular cleaning of

equipment, work area, and clothing is recommended. Avoid contact with skin, eyes, or clothing. Wash hands thoroughly after handling. Keep away from food, drink, and animal feeding stuff.

Section 9: Physical and chemical properties

Physical state: Liquid

Solubility in water: Moderate

Appearance: No information available Odor/odor threshold: No information available

No information available Melting point/freezing point:

Boiling point: No information available

Flashpoint: No information available

Liquid density: No information available

No information available Evaporation rate:

No information available

Lower flammability limit:

No information available Vapor density:

Specific gravity: No information available

No information available Water solubility:

Solubility in other solvents: No information available

Page 40 / 43 Revision date: 9/20/2024 Version 1.0 Partition coefficient:

Autoignition temperature:

Decomposition temperature:

Viscosity:

No information available

No information available

No information available

Explosive properties:

No information available

No information available

Section 10: Stability and reactivity

Reactivity: No data available

Chemical stability: May form explosive peroxides
Possibility of hazardous reactions: None under normal processing

Hazardous polymerization: No information available

Conditions to avoid: Extremes of temperatures and direct sunlight

Incompatible materials: Strong oxidizing agents

Hazardous decomposition products: Carbon oxides

Section 11: Toxicological information

11. Information on likely routes of exposure

Inhalation:

Eye contact:

No data available

11.2nformation on toxicological effects

Symptoms: No information available

Delayed and immediate effects as well as chronic effects from short and long-term

11.3exposure

Chronic toxicity: Repeated contact may cause allergic reactions in very susceptible

persons. Avoid repeated exposure.

11.4 Numerical measures of toxicity - product information

Unknown acute toxicity: No information available

Section 12: Ecological information

Ecotoxicity: May cause long-lasting harmful effects to aquatic life.

Persistence and degradability:

Bioaccumulation:

No information available

No information available

No information available

Section 13: Disposal consideration

Disposal of wastes: Disposal should be in accordance with applicable regional,

national and local laws and regulations.

Contaminated packaging: Do not reuse container

Other information: Waste codes should be assigned by the user based on the

application for which the product was used.
