

Safety Data Sheet

Section 1: Identification of the substance/mixture and of the company/undertaking

1.1	Product identifiers	
	Product name:	DAPI Dilactate
	Product number:	17509
1.2	Relevant identified uses of the substance of	or mixture and uses advised against
	Identified uses:	For research use only. Not intended for diagnostic or therapeutic use.
1.3	Details of the supplier of the datasheet	
	Company:	AAT Bioquest, Inc.
	Address:	5775 W Las Positas Blvd, Pleasanton, CA 94588
	Telephone:	(408)-733-1055
	Fax:	(408)-733-1304
	Email:	info@aatbio.com
1.4	Emergency telephone number	
	Chemtrec (Within USA):	1-(800)-424-9300
	Chemtrec (Outside USA):	1-(703)-527-3887
Sec	tion 2: Hazard identifications	

2.1 Classification of the substance or mixture

Not a dangerous substance or mixture according to the Globally Harmonized System (GHS)

2.2 Label elements

Signal word:	Not applicable
Hazard statements:	None
Symbols/Pictograms:	None
Precautionary statements - prevention:	Wash hands thoroughly after handling
Precautionary statements - response:	IF exposed concerned: Get medical advice/attention
Precautionary statements - storage:	None
Precautionary statements - disposal:	None

2.3 Hazards not otherwise classified (HNOC) or not covered by GHS

Hazards not otherwise classified (HNOC): None

2.4 Other information

Other hazards:

None

Section 3: Composition/information on ingredients

3.1 Substances

Chemical name:	DAPI Dilactate
CAS No.:	28718-91-4
Molecular weight:	457.48
Formula:	

Section 4: First aid measures

4.1 First-aid measures General advice: If symptoms persist, call a physician. Do not breathe dust/fume/gas/mist/vapors/spray. Do not get in eyes, on the skin, or on clothing. Immediately flush with plenty of water. After initial flushing, remove any Eye contact: contact lenses and continue flushing for at least 15 minutes. Keep eye wide open while rinsing. If symptoms persist, call a physician. Skin contact: Consult a physician if necessary. Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Wash contaminated clothing before reuse. Wash off immediately with plenty of water. If skin irritation persists, call a physician. Wash off immediately with soap and plenty of water. Immediate medical attention is not required. Inhalation: Remove to fresh air If breathing is irregular or stopped, administer artificial respiration. Avoid direct contact with skin. Use a barrier to give mouth-to-mouth resuscitation. Artificial respiration and/or oxygen may be necessary. Immediate medical attention is not required. Move to fresh air in case of accidental inhalation of vapors. If symptoms persist, call a physician. Do NOT induce vomiting. Rinse/clean mouth with water and drink plenty Ingestion: of water afterward. Never give anything by mouth to an unconscious person. Consult a physician. Use personal protective equipment. Self-protection of the first aider:

4.2 Most important symptoms and effects, both acute and delayed

Symptoms:	No information available.

4.3 Indication of any immediate medical attention and special treatment needed

	Note to physicians:	Treat symptomatically.
Sec	ction 5: Firefighting measures	
5.1	Suitable extinguishing media	
	Suitable extinguishing media:	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
	Unsuitable extinguishing media:	No information available.
5.2	Specific hazards arising from the chemical	
	Specific hazards arising from the chemical:	In the event of a fire and/or explosion, do not breathe fumes. May cause sensitization by inhalation and skin contact. Thermal decomposition can

lead to the release of irritating and toxic gases and vapors.

	Hazardous combustion products:	Carbon oxides, sulfur oxides
5.3	Explosion data	
	Sensitivity to mechanical impact:	No information available.
	Sensitivity to static discharge:	No information available.
5.4 Protective equipment and precautions for firefighters		r firefighters
	Protective equipment and precautions for firefighters:	As in any fire, wear self-contained breathing apparatus pressure- demand, MSHA/NIOSH (approved or equivalent), and full protective gear.
Sec	tion 6: Accidental release measures	
6.1	Personal precautions, protective equipme	ent, and emergency procedures
	Personal precautions:	Use personal protective equipment as required. Keep people away from and upwind of spill/leak. Evacuate personnel to safe areas.
6.2	Environmental precautions	

Environmental precautions:Prevent further leakage or spillage if safe to do so. Prevent product
from entering drains. Do not flush into surface water or sanitary sewer
system. See Section 12 for additional Ecological Information.

6.3 Methods and material for containment and cleaning up

Methods for containment:	Prevent further leakage or spillage if safe to do so. Cover powder spill with a plastic sheet or tarp to minimize spreading. Dike far ahead of liquid spill for later disposal.
Methods for cleaning up:	Use personal protective equipment as required. Cover powder spill with a plastic sheet or tarp to minimize spreading and keep the powder dry. Take up mechanically, placing in appropriate containers for disposal. Avoid creating dust. Clean contaminated surfaces thoroughly. Soak up with inert absorbent material. Dam up. Pick up and transfer to properly labeled containers. Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water. Take precautionary measures against static discharges.

Section 7: Handling and storage

7.1 Precautions for safe handling

Advice on safe handling:	Avoid contact with skin, eyes, or clothing. Use personal protective
	equipment as required. Wash contaminated clothing before reuse. Do
	not breathe dust/fume/gas/mist/vapors/spray. Do not eat, drink or
	smoke when using this product. Use with local exhaust ventilation.

7.2 Conditions for safe storage, including any incompatibilities

Storage conditions:	Keep the container tightly closed in a dry and well-ventilated place.
	Recommended storage temperature is <-15°C. Protect from light.
Incompatible materials:	None known based on information supplied.

Section 8: Experimental controls/personal protection

8.1 Control parameters

This product, as supplied, does not contain any hazardous materials with occupational exposure limits established by the region-specific regulatory bodies.

8.2 Appropriate engineering controls

Engineering controls:

Showers, eyewash stations, ventilation systems

8.3 Individual protection measures, such as personal protective equipment

Eye/face protection: Skin and body protection:	Tight sealing safety goggles. Face protection shield. Wear protective gloves and protective clothing.
Respiratory protection:	If exposure limits are exceeded, or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive- pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with current local regulations.
General hygiene considerations:	When using, do not eat, drink or smoke. Regular cleaning of equipment, work area, and clothing is recommended. Avoid contact with skin, eyes, or clothing. Wash hands thoroughly after handling. Keep away from food, drink, and animal feeding stuff.

Section 9: Physical and chemical properties

Physical state:	Solid
Solubility in water:	Moderate
Appearance:	No information available
Odor/odor threshold:	No information available
pH:	No information available
Melting point/freezing point:	No information available
Boiling point:	No information available
Flashpoint:	No information available
Liquid density:	No information available
Evaporation rate:	No information available
Upper flammability limit:	No information available
Lower flammability limit:	No information available
Vapor pressure:	No information available
Vapor density:	No information available
Specific gravity:	No information available
Water solubility:	No information available
Solubility in other solvents:	No information available
Partition coefficient:	No information available
Autoignition temperature:	No information available
Decomposition temperature:	No information available
Viscosity:	No information available
Explosive properties:	No information available
Oxidizing properties:	No information available

Section 10: Stability and reactivity

Reactivity:	No data available
Chemical stability:	May form explosive peroxides
Possibility of hazardous reactions:	None under normal processing
Hazardous polymerization:	No information available
Conditions to avoid:	Extremes of temperatures and direct sunlight
Incompatible materials:	Strong oxidizing agents
Hazardous decomposition products:	Carbon oxides

Section 11: Toxicological information

Inhalation: No data available Inhalation: No data available Eye contact: No data available Ingestion: No information available Information on toxicological effects Symptoms: Symptoms: No information available Information available Repeated contact may cause allergic reactions in very susceptible persons. Stability:	-
Physical and chemical properties:	-

16.3 Further information

This material is sold for research purposes only and is not required to appear on the TSCA inventory. It is not intended for food, drug, household, agricultural or cosmetic use. Its use must be supervised by a technically qualified individual experienced in handling potentially hazardous chemicals. The above information is believed to be correct but does not purport to be all-inclusive and shall be used only as a guide. Users should make independent decisions regarding the completeness of the information based on all sources available. AAT Bioquest shall not be held liable for any damage resulting from handling or from contact with the above product.
