

# Safety Data Sheet

### Section 1: Identification of the substance/mixture and of the company/undertaking

1.1	Product identifiers	
	Product name:	XFD532 acid *Same Structure to Alexa Fluor™ 532 acid*
	Product number:	1795
1.2	Relevant identified uses of the substance	or mixture and uses advised against
	Identified uses:	For research use only. Not intended for diagnostic or therapeutic use.
1.3	Details of the supplier of the datasheet	
	Company:	AAT Bioquest, Inc.
	Address:	5775 W Las Positas Blvd, Pleasanton, CA 94588
	Telephone:	(408)-733-1055
	Fax:	(408)-733-1304
	Email:	info@aatbio.com
1.4	Emergency telephone number	
	Chemtrec (Within USA):	1-(800)-424-9300
	Chemtrec (Outside USA):	1-(703)-527-3887
Sec	tion 2: Hazard identifications	

### 2.1 Classification of the substance or mixture

Not a dangerous substance or mixture according to the Globally Harmonized System (GHS)

### 2.2 Label elements

Signal word:	Not applicable
Hazard statements:	None
Symbols/Pictograms:	None
Precautionary statements - prevention:	Wash hands thoroughly after handling
Precautionary statements - response:	IF exposed concerned: Get medical advice/attention
Precautionary statements - storage:	None
Precautionary statements - disposal:	None

#### 2.3 Hazards not otherwise classified (HNOC) or not covered by GHS

Hazards not otherwise classified (HNOC): None

#### 2.4 Other information

Other hazards:

None

### Section 3: Composition/information on ingredients

### 3.1 Substances

Section 4: First aid measures

Chemical name:	XFD532 acid *Same Structure to Alexa Fluor™ 532 acid*
CAS No.:	
Molecular weight:	829.08
Formula:	

#### 4.1 First-aid measures General advice: Do not breathe dust/fume/gas/mist/vapors/spray. Do not get in eyes, on the skin, or on clothing. Eye contact: Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. Keep eye wide open while rinsing. If symptoms persist, call a physician. Skin contact: Consult a physician if necessary. Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Wash contaminated clothing before reuse. Wash off immediately with plenty of water. If skin irritation persists, call a physician. Wash off immediately with soap and plenty of water. Immediate medical attention is not required. Inhalation: Remove to fresh air If breathing is irregular or stopped, administer artificial respiration. Avoid direct contact with skin. Use a barrier to give mouth-to-mouth resuscitation. Artificial respiration and/or oxygen may be necessary. Immediate medical attention is not required. Move to fresh air in case of accidental inhalation of vapors. If symptoms persist, call a physician. Ingestion: Do NOT induce vomiting. Rinse/clean mouth with water and drink plenty of water afterward. Never give anything by mouth to an unconscious person. Consult a physician. Self-protection of the first aider: Use personal protective equipment.

### 4.2 Most important symptoms and effects, both acute and delayed

4.3	Indication of any immediate medical attention and special treatment needed		
	Note to physicians:	Treat symptomatically.	
Section 5: Firefighting measures			
5.1	Suitable extinguishing media		
	Suitable extinguishing media:	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.	
	Unsuitable extinguishing media:	No information available.	
5.2	Specific hazards arising from the chemi	cal	
	Specific hazards arising from the chemical:	In the event of a fire and/or explosion, do not breathe fumes. May	

No information available.

cause sensitization by inhalation and skin contact. Thermal decomposition can lead to the release of irritating and toxic gases and vapors.

Symptoms:

	Hazardous combustion products:	Carbon oxides, sulfur oxides
5.3	Explosion data	
	Sensitivity to mechanical impact:	No information available.
	Sensitivity to static discharge:	No information available.
5.4	Protective equipment and precautions fo	or firefighters
	Protective equipment and precautions for firefighters:	As in any fire, wear self-contained breathing apparatus pressure- demand, MSHA/NIOSH (approved or equivalent), and full protective gear.
Sec	ction 6: Accidental release measures	
6.1 Personal precautions, protective equipment, and emergency procedures		ent, and emergency procedures
	Personal precautions:	Use personal protective equipment as required. Keep people away from and upwind of spill/leak. Evacuate personnel to safe areas.
6.2	Environmental precautions	
	Environmental precautions:	Prevent further leakage or spillage if safe to do so. Prevent product from entering drains. Do not flush into surface water or sanitary sewer system. See Section 12 for additional Ecological Information.
6.3	Methods and material for containment a	nd cleaning up
	Methods for containment:	Prevent further leakage or spillage if safe to do so. Cover powder spill with a plastic sheet or tarp to minimize spreading. Dike far ahead of liquid spill for later disposal.
	Methods for cleaning up:	Use personal protective equipment as required. Cover powder spill with a plastic sheet or tarp to minimize spreading and keep the powder

with a plastic sheet or tarp to minimize spreading and keep the powder dry. Take up mechanically, placing in appropriate containers for disposal. Avoid creating dust. Clean contaminated surfaces thoroughly. Soak up with inert absorbent material. Dam up. Pick up and transfer to properly labeled containers. Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water. Take precautionary measures against static discharges.

### Section 7: Handling and storage

### 7.1 Precautions for safe handling

Advice on safe handling:Avoid contact with skin, eyes, or clothing. Use personal protective<br/>equipment as required. Wash contaminated clothing before reuse. Do<br/>not breathe dust/fume/gas/mist/vapors/spray. Do not eat, drink or<br/>smoke when using this product. Use with local exhaust ventilation.

### 7.2 Conditions for safe storage, including any incompatibilities

Storage conditions:	Keep the container tightly closed in a dry and well-ventilated place.
	Keep out of the reach of children. Keep containers tightly closed in a
	cool, well-ventilated place. Keep in properly labeled containers. May
	form explosive peroxides.
Incompatible materials:	None known based on information supplied.

### Section 8: Experimental controls/personal protection

### 8.1 Control parameters

This product, as supplied, does not contain any hazardous materials with occupational exposure limits established by the region-specific regulatory bodies.

### 8.2 Appropriate engineering controls

Engineering controls:

Showers, eyewash stations, ventilation systems

### 8.3 Individual protection measures, such as personal protective equipment

Eye/face protection:	Tight sealing safety goggles. Face protection shield.
Skin and body protection:	Wear protective gloves and protective clothing.
Respiratory protection:	If exposure limits are exceeded, or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with current local regulations.
General hygiene considerations:	When using, do not eat, drink or smoke. Regular cleaning of equipment, work area, and clothing is recommended. Avoid contact with skin, eyes, or clothing. Wash hands thoroughly after handling. Keep away from food, drink, and animal feeding stuff.

### Section 9: Physical and chemical properties

Physical state:	Solid
Solubility in water:	Low
Appearance:	No information available
Odor/odor threshold:	No information available
pH:	No information available
Melting point/freezing point:	No information available
Boiling point:	No information available
Flashpoint:	No information available
Liquid density:	No information available
Evaporation rate:	No information available
Upper flammability limit:	No information available
Lower flammability limit:	No information available
Vapor pressure:	No information available
Vapor density:	No information available
Specific gravity:	No information available
Water solubility:	No information available
Solubility in other solvents:	No information available
Partition coefficient:	No information available
Autoignition temperature:	No information available
Decomposition temperature:	No information available
Viscosity:	No information available
Explosive properties:	No information available
Oxidizing properties:	No information available

## Section 10: Stability and reactivity

Reactivity:	No data available
Chemical stability:	May form explosive peroxides
Possibility of hazardous reactions:	None under normal processing
Hazardous polymerization:	No information available
Conditions to avoid:	Extremes of temperatures and direct sunlight
Incompatible materials:	Strong oxidizing agents
Hazardous decomposition products:	Carbon oxides

### Section 11: Toxicological information

11.1 Information on likely routes of exp	posure
Inhalation:	No data available
Eye contact:	No data available
Skin contact:	No data available
Ingestion:	No data available
11.2 Information on toxicological effect	ts
Symptoms:	No information available
11.3 Delayed and immediate effects as	well as chronic effects from short and long-term exposure
Chronic toxicity:	Repeated contact may cause allergic reactions in very susceptible persons. Avoid repeated exposure.
11.4 Numerical measures of toxicity - p	product information
Unknown acute toxicity:	No information available
Section 12: Ecological information	
Ecotoxicity:	May cause long-lasting harmful effects to aquatic life.
Persistence and degradability:	No information available
Bioaccumulation:	No information available
Mobility:	No information available
Section 13: Disposal consideration	
Disposal of wastes:	Disposal should be in accordance with applicable regional, national and local laws and regulations.
Contaminated packaging:	Do not reuse container
Other information:	Waste codes should be assigned by the user based on the application

Waste codes should be assigned by the user based on the application for which the product was used.

# Section 14: Transport information

DOT:	Not regulated	
IMDG:	Not regulated	
IATA:	Not regulated
