

**Cy3.5 Dye qPCR Calibration Plate**  
**\*Optimized for ABI7500 Fast 96-Well\***Catalog number: 67014  
Unit size: 1 Plate**Product Details**

---

Storage Conditions	Freeze (<-15 °C), Minimize light exposure
Expiration Date	12 months upon receiving

**Chemical Properties**

---

Appearance	Liquid
Soluble In	DMSO

**Applications**

---

Cy3.5 Dye qPCR Calibration Plate can be used to maintain your 7500 Real-Time PCR System with a Fast 96-well block. For most qPCR instruments, it is necessary to calibrate the device at least every six months. This calibration plate is ready to use without any additional preparation steps. The qPCR calibration plate might significantly improve qPCR results with multiplexing by more accurately representing fluorescent spectra used in your real-time experiments. Please refer to your instrument's guide for the detailed calibration operation.
