

**Product no** **AS16 3344**

**Goat anti-Human IgG Fc, FITC conjugated, min, cross-reactivity to human IgA + IgM, bovine, horse, mouse, or rabbit serum proteins**

**Product information**

|                  |                                       |
|------------------|---------------------------------------|
| <b>Immunogen</b> | Purified Human IgG, Fc fragment       |
| <b>Host</b>      | Goat                                  |
| <b>Clonality</b> | Polyclonal                            |
| <b>Purity</b>    | Immunogen affinity purified goat IgG. |
| <b>Format</b>    | Liquid                                |
| <b>Quantity</b>  | 1.0 mg                                |
| <b>Storage</b>   | Store at 2-8 °C.                      |

|                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|-------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Additional information</b> | <p>Antibody purity is &gt; 95% based on SDS-PAGE.<br/>         Affinity purified using solid phase Human IgG .<br/>         Antibody is supplied in 10 mM Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2, 1% (w/v) BSA, Protease/IgG free.<br/>         0.05% (w/v) Sodium Azide is added as a preservative.</p> <p>Based on IEP, this antibody reacts with: • heavy ( <math>\gamma</math> ) chains on human IgG.<br/>         Based on IEP, no reactivity is observed to: • non-immunoglobulin human serum immunoglobulins • light chains on all human immunoglobulins • human IgA or IgM • serum proteins from bovine, horse, mouse, or rabbit.</p> |
|-------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

**Application information**

|                             |                                  |
|-----------------------------|----------------------------------|
| <b>Recommended dilution</b> | 1 : 20-1 : 2000 (Flow cyt), (IL) |
| <b>Confirmed reactivity</b> | Human IgG Fc                     |
