

Product no **AS10 737**

Goat anti-Human IgA heavy (alpha chain), Affinity purified, Unconjugated, min, cross-reactivity to bovine/mouse/rabbit serum

Product information

Immunogen | purified human IgA heavy (alpha chain)

Host | Goat

Clonality | Polyclonal

Purity | Immunogen affinity purified goat IgG.

Format | Liquid

Quantity | 1 mg

Storage | Store at 2-8 °C. Shelf life is one year from date of receipt.

Additional information | Antibody is supplied in 10 mM Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2, 0.05 % (w/v) of Sodium azide as preservative.

Antibody concentration is 4.5 mg/ml.

Application information

Recommended dilution | The optimal working dilution should be determined by the investigator

Confirmed reactivity | Human IgA heavy (alpha chain)

Predicted reactivity | Human IgA Heavy (alpha chain)

Not reactive in | No confirmed exceptions from predicted reactivity are currently known

Additional information | No reactivity is observed to the light chains or non-immunoglobulin human serum proteins based on immunoelectrophoresis.

No reactivity to bovine, mouse or rabbit serum proteins based on immunoelectrophoresis.
