

## House Dust Mite Extract, Biotinylated

### Product Information

---

**Protein Name**

Mite Extract

---

**Cat#**

na-3122ABL

---

**Product Name**

House Dust Mite Extract, Biotinylated

---

**Source**

D. pteronyssinus

---

**Species**

Dermatophagoides pteronyssinus

---

**Formulation**

Lyophilized powder

---

**Storage**

Store it under sterile conditions at -20 to -80 °C. It is recommended that the protein be aliquoted for optimal storage. Avoid repeated freeze-thaw cycles.

---

**Product Description**

Native house dust mite is extracted from Dermatophagoides pteronyssinus. The product is labeled by biotin and it is to be used to detect anti-house dust mite antibody. House dust mite extract has a unique composition depending on the raw materials. The reactivity of this product may differ from batch to batch.
