

Active Squalane Liposome

Product Information

Cat

CLP-049

Product Name

Active Squalane Liposome

Description

This formulation contains liposomes made of phospholipids from soy lecithin and Squalane. The liposomal delivery system protects the active ingredient making it to reach the target cells more efficiently. Squalane acts as lubricating skin conditioning agents, which gives the skin a soft, smooth appearance, as well as hair conditioning agents.. Product designed to be used in cosmetic formulation in the range of 5 to 10 % respect to the final product.
