

Product Information

Recombinant Human tripartite motif-containing 21

Product Information

Catalog#	MK0761H
Product Name	Recombinant Human tripartite motif-containing 21
Product Overview	Recombinant Human RO-52 produced in E.Coli is a single, non-glycosylated, polypeptide chain. The protein has a molecular mass of 52kDa. The RO-52 is purified by proprietary chromatographic techniques.
Description	Purified Recombinant Human tripartite motif-containing 21 from Creative Biomart. TRIM21(Human)(TRIM21, tripartite motif containing 21).
Source	E. coli
Species	Human
Tag	N/A
Formulation	The protein solution (1mg/ml) contains 6M Urea, 500mM NaCl and 10mM Tris pH8.0.
Purity	>90% as determined by SDS-PAGE and RP-HPLC.
Stability	Samples are stable at 4 centigrade for 3 weeks, -70 centigrade for twelve months.
Notes	Research Use Only. Not for use in clinical procedures. Avoid repeated freeze-thaw cycles.
