## Description

SNX24 may be involved in several stages of intracellular trafficking (UniProt).

## Application Notes

The stated application concentrations are suggested starting points. Titration of the Sorting nexin-24 antibody may be required due to differences in protocols and secondary/substrate sensitivity.

## Immunogen

A portion of amino acids 14-43 from the human protein was used as the immunogen for the Sorting nexin-24 antibody.

## Storage

Aliquot the Sorting nexin-24 antibody and store frozen at -20oC or colder. Avoid repeated freeze-thaw cycles.
