## Description

This antibody reacts to human, mouse and rat CD34.

## Application Notes

The stated application concentrations are suggested starting points. Titration of the recombinant CD34 antibody may be required due to differences in protocols and secondary/substrate sensitivity.

## Immunogen

A peptide corresponding to the C-terminus of human CD34 was used as the immunogen for the recombinant CD34 antibody.

## Storage

Store the recombinant CD34 antibody at -20oC.
