|                           |  |
|---------------------------|--|
| <b>Availability</b>       | 1-3 business days  |
| <b>Species Reactivity</b> | Human, Mouse, Rat  |
| <b>Format</b>             | Antigen affinity purified  |
| <b>Clonality</b>          | Polyclonal (rabbit origin)   |
| <b>Isotype</b>            | Rabbit IgG   |
| <b>Purity</b>             | Antigen affinity   |
| <b>Buffer</b>             | Lyophilized from 1X PBS with 2.5% BSA and 0.025% sodium azide/thimerosal |
| <b>UniProt</b>            | P31371   |
| <b>Applications</b>       | Western blot : 0.5-1ug/ml<br>IHC (FFPE) : 0.5-1ug/ml                     |
| <b>Limitations</b>        | This FGF9 antibody is available for research use only.                   |

Western blot testing of FGF9 antibody and Lane 1: rat brain; 2: human HeLa lysate; Predicted molecular weight ~23 kDa with a possible 45-55 kDa dimer.

IHC-P: FGF9 antibody testing of rat brain tissue

## Description

FGF 9, Fibroblast growth factor 9, is a protein that in humans is encoded by the FGF9 gene. The protein encoded by this gene is a member of the fibroblast growth factor(FGF) family. The FGF 9 gene contains 3 exons. By radioactive chromosomal in situ hybridization, the FGF 9 gene is mapped to chromosome 13q11-q12. This protein was isolated as a secreted factor that exhibits a growth-stimulating effect on cultured glial cells. In nervous system, this protein is produced mainly by neurons and may be important for glial cell development. Expression of the mouse homolog of this gene was found to be dependent on Sonic hedgehog(Shh) signaling.

## Application Notes

The stated application concentrations are suggested starting amounts. Titration of the FGF9 antibody may be required due to differences in protocols and secondary/substrate sensitivity.

## Immunogen

An amino acid sequence from the middle region of human FGF9 (SNLYKHVDTGRRYYV) was used as the immunogen for this FGF9 antibody (100% homologous in human, mouse and rat).

## Storage

After reconstitution, the FGF9 antibody can be stored for up to one month at 4oC. For long-term, aliquot and store at -20oC. Avoid repeated freezing and thawing.
