

## CD8B Antibody [clone CBB/1595] (V8881)

| Catalog No.    | Formulation                                                             | Size   |
|----------------|-------------------------------------------------------------------------|--------|
| V8881-100UG    | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide | 100 ug |
| V8881-20UG     | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide | 20 ug  |
| V8881SAF-100UG | 1 mg/ml in 1X PBS; BSA free, sodium azide free                          | 100 ug |

|---------------------------|--------------------------------------------------------|
| <b>Availability</b>       | 1-3 business days                                      |
| <b>Species Reactivity</b> | Bovine                                                 |
| <b>Format</b>             | Purified                                               |
| <b>Host</b>               | Mouse                                                  |
| <b>Clonality</b>          | Monoclonal (mouse origin)                              |
| <b>Isotype</b>            | Mouse IgG1, kappa                                      |
| <b>Clone Name</b>         | CBB/1595                                               |
| <b>Purity</b>             | Protein A/G affinity                                   |
| <b>UniProt</b>            | P10966                                                 |
| <b>Localization</b>       | Cell surface                                           |
| <b>Applications</b>       | ELISA (order BSA-free Format For Coating) :            |
| <b>Limitations</b>        | This CD8B antibody is available for research use only. |

SDS-PAGE analysis of purified, BSA-free CD8B antibody (clone CBB/1595) as confirmation of integrity and purity.

## Description

CD8B is an integral membrane glycoprotein that plays an essential role in the immune response and serves multiple functions in responses against both external and internal offenses. [UniProt]

## **Application Notes**

Optimal dilution of the CD8B antibody should be determined by the researcher.

## **Immunogen**

Bovine CD8b was used as the immunogen for the CD8B antibody.

## **Storage**

Aliquot the CD8B antibody and store frozen at -20°C or colder. Avoid repeated freeze-thaw cycles.
