

XRN2 Antibody (F43767)

Catalog No.	Formulation	Size
F43767-0.4ML	In 1X PBS, pH 7.4, with 0.09% sodium azide	0.4 ml
F43767-0.08ML	In 1X PBS, pH 7.4, with 0.09% sodium azide	0.08 ml

[Bulk quote request](#)

Availability	1-3 business days
Species Reactivity	Human
Predicted Reactivity	Mouse, Chicken, Drosophila
Format	Antigen affinity purified
Host	Rabbit
Clonality	Polyclonal (rabbit origin)
Isotype	Rabbit Ig
Purity	Antigen affinity
UniProt	Q9H0D6
Applications	Western Blot : 1:1000
Limitations	This XRN2 antibody is available for research use only.

XRN2 antibody western blot analysis in T47D lysate

Description

This gene shares similarity with the mouse Dhml and the yeast dhp1 gene. The yeast gene is involved in homologous recombination and RNA metabolism, such as RNA synthesis and RNA trafficking. Complementation studies show that Dhml has a similar function in mouse as dhp1. The function of the human gene has not yet been determined. Transcript variants encoding different isoforms have been noted for this gene; however, their full-length nature is not known.

Application Notes

Titration of the XRN2 antibody may be required due to differences in protocols and secondary/substrate sensitivity.

Immunogen

A portion of amino acids 48-76 from the human protein was used as the immunogen for this XRN2 antibody.

Storage

Aliquot the XRN2 antibody and store frozen at -20oC or colder. Avoid repeated freeze-thaw cycles.
