

GATA-4 (phospho Ser262) rabbit pAb

Cat No.:ES5482

For research use only

Overview

Product Name	GATA-4 (phospho Ser262) rabbit pAb
Host species	Rabbit
Applications	WB;IF;ELISA
Species Cross-Reactivity	Human;Mouse;Rat
Recommended dilutions	Western Blot: 1/500 - 1/2000. Immunofluorescence: 1/200 - 1/1000. ELISA: 1/5000. Not yet tested in other applications.
Immunogen	The antiserum was produced against synthesized peptide derived from human GATA4 around the phosphorylation site of Ser262. AA range:228-277
Specificity	Phospho-GATA-4 (S262) Polyclonal Antibody detects endogenous levels of GATA-4 protein only when phosphorylated at S262.
Formulation	Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.
Storage	Store at -20°C. Avoid repeated freeze-thaw cycles.
Protein Name	Transcription factor GATA-4
Gene Name	GATA4
Cellular localization	Nucleus .
Purification	The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.
Clonality	Polyclonal
Concentration	1 mg/ml
Observed band	48kD
Human Gene ID	2626
Human Swiss-Prot Number	P43694
Alternative Names	GATA4; Transcription factor GATA-4; GATA-binding factor 4
Background	This gene encodes a member of the GATA family of zinc-finger transcription factors. Members of this family recognize the GATA motif which is present in the promoters of many genes. This protein is

thought to regulate genes involved in embryogenesis and in myocardial differentiation and function, and is necessary for normal testicular development. Mutations in this gene have been associated with cardiac septal defects. Additionally, alterations in gene expression have been associated with several cancer types. Alternative splicing results in multiple transcript variants. [provided by RefSeq, Apr 2015],

Enzyme-Linked Immunosorbent Assay (Phospho-ELISA) for Immunogen Phosphopeptide (Phospho-left) and Non-Phosphopeptide (Phospho-right), using GATA4 (Phospho-Ser262) Antibody

Immunofluorescence analysis of HUVEC cells, using GATA4 (Phospho-Ser262) Antibody. The picture on the right is blocked with the phospho peptide.

Western blot analysis of lysates from 293 cells, using GATA4 (Phospho-Ser262) Antibody. The lane on the right is blocked with the phospho peptide.
