

## FNIP2 rabbit pAb

## Cat No.:ES19098

For research use only

## **Overview**

| Product Name                 | FNIP2 rabbit pAb   |
|------------------------------|--|
| Host species                 | Rabbit   |
| Applications                 | WB   |
| Species Cross-Reactivity     | Human;Mouse  |
| <b>Recommended dilutions</b> | WB 1:1000-2000   |
| Immunogen                    | Synthesized peptide derived from human FNIP2 AA range: 745-795           |
| Specificity                  | This antibody detects endogenous levels of human FNIP2                   |
| Formulation                  | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.  |
| Storage                      | Store at -20 $^\circ\!\!\mathbb{C}$ . Avoid repeated freeze-thaw cycles. |
| Protein Name                 | Folliculin-interacting protein 2 (FNIP1-like protein)                    |
|                              | (O6-methylguanine-induced apoptosis 1 protein)                           |
| Gene Name                    | FNIP2 FNIPL KIAA1450 MAPO1   |
| Cellular localization        | Lysosome membrane . Cytoplasm . Colocalizes with FLCN in the cytoplasm   |
| Purification                 | The antibody was affinity-purified from rabbit                           |
|                              | antiserum by affinity-chromatography using                               |
|                              | epitope-specific immunogen.  |
| Clonality                    | Polyclonal   |
| Concentration                | 1 mg/ml  |
| Observed band                |  |
| Human Gene ID                | 57600  |
| Human Swiss-Prot Number      | Q9P278   |
| Alternative Names            |  |
| Background                   |  |
