

DiagNano™ Goat Anti-Rabbit (Fc Specific) IgG, QD 610 nm conjugate

Cat.No: GAR-FG004

DESCRIPTION

Description	Goat Anti-Rabbit (Fc Specific) IgG, QD 610 nm conjugate. CdSSe/ZnS, emission at 610 nm. Fc Specific.
--------------------	--

APPLICATION

Application Notes	Immunohistochemistry, immunofluorescence, western blot, flow cytometry, and cell-associated experimental analysis.
--------------------------	--

PRODUCT INFORMATION

Ligand	Goat Anti-Rabbit (Fc Specific) IgG
Concentration	QD concentration 1 μ M
Emission Max	610 $\pm$ 10 nm
Quantum Yield	N/A

STORAGE AND SHIPPING

Storage	Store at 4°C upon receipt for 3 months away from light. DO NOT FREEZE!
Shipping Condition	Shipped at ambient temperature.
