

DiagPoly™ Plain Fluorescent Polystyrene Particles, Green, 7 μ m

Cat.No: DNG-P238

DESCRIPTION

Description	7 μ m polystyrene particles attached green fluorescent dye (excitation: 475 nm, emission: 510 nm) on the surface, and there is no additional coatings or special functional groups on the surface. CV < 5%.
--------------------	---

PRODUCT INFORMATION

Diameter	7 μ m
Functional Group	Plain
Concentration	25 mg/mL
Absorption Max	475 nm
Emission Max	510 nm

STORAGE AND SHIPPING

Storage Buffer	Water
Storage	2-8°C in the dark. Do not freeze.
Shelf Life	3 month

TECHNOTES

TECHNOTES	To achieve optimum particle suspension, resuspend by vortexing before use.
