

## DiagPoly™ Plain Polystyrene/DVB Particles, 0.1 µm

Cat.No: DNG-M001

### DESCRIPTION

<b>Description</b>	Plain DVB cross-linked porous polystyrene particles, 0.1 µm, 10% w/v, supplied in DI water.
--------------------	---------------------------------------------------------------------------------------------

---

### APPLICATION

<b>Application Notes</b>	Used as standards or markers, in immunoassays (such as latex agglutination assays and solid phase enzyme immunoassays), or coated with proteins for use in research and diagnostic tests.
--------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

---

### PRODUCT INFORMATION

<b>Diameter</b>	0.1 µm
-----------------	--------

---

<b>Functional Group</b>	Plain
-------------------------	-------

---

<b>Concentration</b>	10% w/v
----------------------	---------

---

### STORAGE AND SHIPPING

<b>Storage Buffer</b>	DI water with 0.1% NaN <sub>3</sub>
-----------------------	-------------------------------------

---

<b>Storage</b>	Store at 2-8°C. Do not freeze.
----------------	--------------------------------

---
