

TOP PICKS!

Digital Pregnancy Tests

Product Advantages

- Early detection of pregnancy
- Easy to use with 1 step operation
- Rapid results in just 3 minutes
- Easy-to-read digital display shows clear results
- High accuracy

Product Background

- Human chorionic gonadotropin (hCG) is a hormone secreted by the placenta during pregnancy. It aids in the development of early pregnancy and serves as a key indicator of pregnancy.
- The digital hCG pregnancy test is a rapid and user-friendly device. It is designed for the qualitative detection of hCG in human urine samples.
- With an ultra-sensitive threshold of 25 mIU/mL or 10 mIU/mL, the test enables early pregnancy detection.

Product Information

1. Digital hCG Pregnancy Test

Cat. No.: FHC-CTE103H

Specimen: Urine

Pack: 1T

Cut-off: 25 mIU/mL

2. Digital Early Pregnancy Test

Cat. No.: FHC-CTEU103H

Specimen: Urine

Pack: 1T

***Cut-off: 10 mIU/mL**
