

CONTRACT WORK OPTIONS:

WE SUPPORT YOU IN YOUR RESEARCH PROJECTS
AND MAKE SOME OF YOUR WORK EASIER!

PROTEIN EXPRESSION & PURIFICATION

- flexible modular system depending on **YOUR** specific needs
- protein expression in E.coli or Insect cells (Sf9)

MODULS:

- cloning
- generation of recombinant E.coli strain or baculovirus
- high titer stock production (for protein expression in Sf9)
- optimization of production conditions
- generation of E.coli biomass or large scale production in Sf9
- protein purification

ANTIBODY PRODUCTION

- Antigen Production Service
- Immunization Service
- Antibody Preparation Service

GET IN TOUCH:

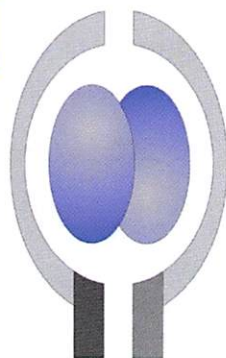

ReliaTech GmbH

Lindener Str. 15 • 38300 Wolfenbüttel • Germany

Phone: +49 (0) 5331 8586 987

Fax: +49 (0) 5331 8586 989

INFORMATION!

FUNCTIONAL ASSAYS

- We test YOUR proteins for biological activity in cell-based assays using our more than twenty years of experience.

REAGENT SERVICE

You need our reagents

- in a larger amount?
- with or without special carrier proteins?
- differing vial sizes?

ReliaTech offers all necessary product design options to make products suitable for **YOUR** research purposes, especially

- fillings of individually defined amounts of protein per vial
- product stabilization with carrier protein (e.g. bovine, human, mouse or rat serum albumin)
- choice of individual presentation forms (e.g. liquid, lyophilized, freeze-dried)

ReliaTech's reagent service will enable you to fit reagents into the requirements of **YOUR** specific experimental settings.

We are happy to support you. Please contact us: orders@reliatech.de

ReliaTech is ISO 9001:2015 certified.
