

Chickens Make Better Antibodies!

Our custom antibody service is egg-ceptional

CHICKEN ANTIBODY EXPERTS

- ◆ Two decades of experience in chicken polyclonal antibody production
- ◆ Proprietary methods for protein sequence analysis and immunogenic peptide determination
- ◆ Deep understanding of the advantages of using avian IgY to study mammalian systems

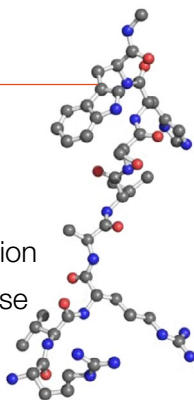

FLEXIBILITY IN SIZE AND SCOPE

- ◆ Capability to scale for larger projects—call us to discuss!
- ◆ Customize your package—antibody production, peptide synthesis, or both!
- ◆ Two antibody purification options: IgY fraction or affinity purified

COMPREHENSIVE SUPPORT & SERVICE

- ◆ Peptide design, synthesis, and conjugation
- ◆ Recombinant protein production
- ◆ Antibody production and purification
- ◆ Phosphospecific antibody expertise
- ◆ ELISA screening

RESPONSIBLE ANIMAL TREATMENT

- ◆ Non-invasive antibody production
- ◆ Hens are never restrained for antibody collection
- ◆ Antibody purified from egg yolks, no bleeds necessary
