

Enzymes

Introduction

Creative Biogene offers high-quality enzyme products for industrial and research uses. Supported by our unparalleled expertise in research and production, the products are assured with high purity and stability. Our products include enzymes in different industrial areas, including Agriculture, Bioenergy Industry, Cosmetic Industry, Detergent Industry, Diagnostic Industry, Environment, Food Industry, Leather Industry, Pharmaceutical Industry, Pulp & Paper Industry, Textile Industry, Research Use.

In addition, development of commercial enzymes is a specialized business of Creative Biogene.

- **Screening for new and improved enzymes**
- **Selection of microorganisms and strain improvement for qualitative and quantitative improvement**
- **Fermentation for enzyme production**
- **Large-scale enzyme purifications**
- **Formulation of enzymes for sale**

CAT.NO.	NAME
MBS-1840	Pullulanase (Food Grade)
MBS-0618	Aspergillus niger Inulinase
MBS-0817	Bacterial Phytase (5000 U/g)
MBS-0934	Helix pomatia Sulfatase
MBS-0241	Feed Enzyme Mannanase
MBS-1390	Recombinant β -Mannosidase from Bacteroides thetaiotaomicron (1mg)
MBS-0758	Recombinant Pyranose Oxidase
MBS-1777	Lignin Peroxidase from Phanerochaete chrysosporium
MBS-0094	Bacillus subtilis Bilirubin oxidase
MBS-0370	Myrothecium verrucaria Bilirubin Oxidase
MBS-1460	Bacillus pumilus Bilirubin Oxidase/Laccase
MBS-0094	Bacillus subtilis Bilirubin oxidase
MBS-0370	Myrothecium verrucaria Bilirubin Oxidase
MBS-1460	Bacillus pumilus Bilirubin Oxidase/Laccase
MBS-1842	β -Amylase (Food Grade)
MBS-1000	Barley β -Amylase
MBS-1001	Sweet potato β -Amylase
MBS-1258	Recombinant β -Amylase from Bacillus cereus
MBS-0880	Bacillus licheniformis Protease
MBS-0758	Recombinant Pyranose Oxidase from Coriolus sp.
MBS-1455	Recombinant Pyranose Oxidase from E. coli
MBS-1277	α -Galactosidase
MBS-0874	Porcine Prolidase
MBS-1828	Swine (Bovine) Trypsin-Chymotrypsin 1: 1
MBS-1829	Swine (Bovine) Trypsin-Chymotrypsin 1: 250
MBS-1830	Swine (Bovine) Trypsin-Chymotrypsin 6: 1
MBS-0694	Lysozyme
MBS-0067	Food-grade liquid lactase

CAT.NO.	NAME
MBS-0925	Escherichia coli Superoxide Dismutase
MBS-0926	Horseradish Superoxide Dismutase
MBS-0927	Human Superoxide Dismutase
GBRN-0001	Proteinase K from Yeast Cells
MBS-0489	Tritirachium album Proteinase K
MBS-0884	Tritirachium album limber Proteinase K
MBS-1443	Recombinant Proteinase K from Tritirachium album limber
MBS-0097	Schizophyllum commune Cholesterol Esterase
MBS-0098	Pseudomonas sp. Cholesterol Esterase
MBS-0099	Microorganism Cholesterol Esterase
MBS-0175	Chemically modified Pseudomonas species Cholesterol Esterase
MBS-0197	Recombinant Cholesterol Esterase from E. coli
MBS-0389	Bovine Cholesterol Esterase
MBS-0390	Porcine Cholesterol Esterase
MBS-0391	Pseudomonas fluorescens Cholesterol Esterase
MBS-1196	Candida cylindracea Cholesterol Esterase
MBS-1785	PEG Modified Cholesterol Esterase
MBS-0105	Bacillus sp. Glucose-6-phosphate dehydrogenase
MBS-0106	Microorganism Glucose-6-phosphate Dehydrogenase
MBS-0159	baker's yeast (S. cerevisiae) Glucose-6-phosphate Dehydrogenase
MBS-0174	Chemically modified Glucose-6-phosphate Dehydrogenase from Leuconostoc mesenteroides
MBS-0189	Leuconostoc mesenteroides Glucose-6-phosphate Dehydrogenase
MBS-0190	Torula yeast Glucose-6-phosphate dehydrogenase
MBS-0191	Recombinant Leuconostoc mesenteroides Glucose-6-phosphate Dehydrogenase
MBS-0199	Recombinant Glucose-6-phosphate Dehydrogenase from E. coli
MBS-0126	Microorganism Alkaline Phosphatase
MBS-0749	N-Acetylneuraminic acid aldolase
MBS-0133	Rhizopus sp. Glucoamylase
MBS-0141	Pediococcus sp. L- α -glycerophosphate oxidase
MBS-0143	Microorganism Hexokinase
MBS-0149	Microorganism Lactate oxidase
MBS-0112	Aerococcuss viridans Lactate Oxidase
MBS-0636	Pediococcus sp. Lactate Oxidase
MBS-0152	Microorganism Lipoprotein lipase
MBS-0154	Flavobacterium sp. Proline specific endopeptidase
MBS-0975	Microbial Xanthine Oxidase
MBS-0169	Diaphorase from microorganism
MBS-0923	Bovine Superoxide Dismutase
MBS-0924	Canine Superoxide Dismutase
