

# Reagent Customization Services

Tailored Cell Culture Reagents for  
Your Unique Research Needs

Pricella® specializes in custom cell culture media and reagent solutions, tailored to your unique research needs. Whether you require small-scale proof-of-concept batches or large-scale production, we deliver high-quality, consistent, and reliable customized products to support your research endeavors.

## Key Features

### Quick Turnaround Time

Quick development and delivery to ensure efficiency within your research.

### Scalable Production

Support for research needs ranging from 1 L to 3,000 L.

### Strict Quality Control

Rigorous testing ensures every batch meets your specifications.

### Certified Excellence

ISO 9001 and ISO 13485 certifications for quality assurance.

## Flexible Customization

### Customizable Product Range

- Liquid Basal Media
- Conventional Complete Media
- Powder Basal Media
- Balanced Salt Solutions

### Customizable Options

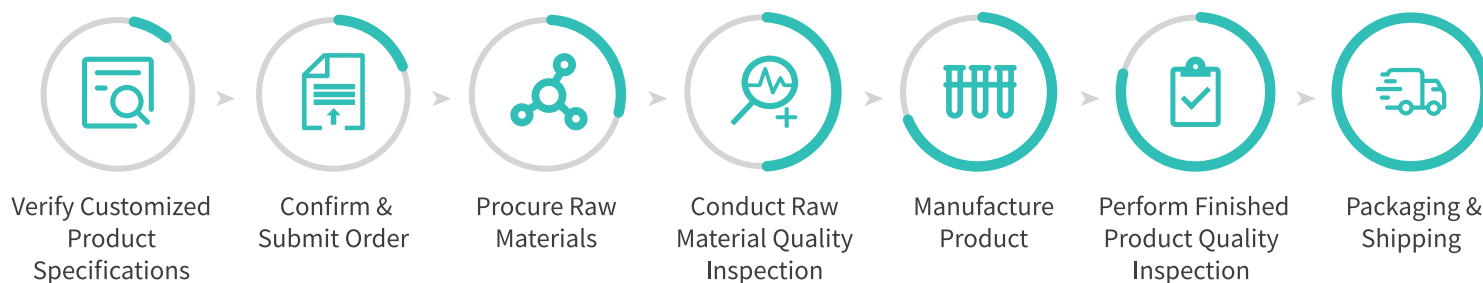

- Component Omission
- Addition of Growth Additives or Other Substances
- Concentration Adjustment
- pH Adjustment
- Modification of Existing Formulas or Creation of New Formulas

## Product Testing & Quality Specifications

Before quality control release, the biological, chemical, and physical quality attributes of each batch are tested in accordance with established procedures. All products are accompanied by relevant certifications and documentation

Property	Test	Certifications & Documentation
Biological	Endotoxin	Material Safety Data Sheet (MSDS) Certificate of Analysis (COA) ISO 13485 and ISO 9001:2015 Certifications
	Sterility	
Chemical	Osmolality	
	pH	
Physical	Appearance	
	Solubility	

## Customization Service Workflow

## Special Custom Media

Pricella® provides tailored manufacturing solutions for complex or unique research demands. Pricella® can also convert custom formulations into cost-effective standardized products.

Product Name	Cat. No.	Size	Price
RPMI-1640 (glucose free), with HEPES, without L-glutamine, phenol red	PM150133	500 mL	\$30.00
RPMI-1640, with HEPES, P/S	PM150113A	500 mL	\$20.00
RPMI-1640 (glucose free), with HEPES	PM150123	500 mL	\$25.00
RPMI-1640, 2 ×	PM150134	500 mL	\$25.00
Phosphate Buffer (PBS, 1 ×), with P/S	PB180327A	500 mL	\$15.00
